

About Us

Started by parents who have lived the intellectual and developmental disability journey with their own children, our agency treats each client with the same caring and vested interest as we do our own family members. At **Disability Navigators**, person-centered planning isn't just a term, it's a deeply held core value that guides our work as support coordinators.

Our Vision

We are dedicated to providing the most responsive, trustworthy and professional Support Coordination services in New Jersey.

Helping individuals with intellectual and developmental disabilities choose the best path to success!
